WORK EXPERIENCE

Software Engineer

11/2023 – Current

Bstar Solutions - Galaxy Holdings

- Built secure, reliable banking applications focused on priority customer management.
- Designed project architectures and implemented reusable design patterns for maintainability.
- Set up CI/CD pipelines and Docker environments to streamline deployment processes.
- Collaborated with PM and cross-functional teams to deliver user-focused solutions.
- Participated in backend projects using Go and Java Spring Boot.
- Tested RESTful APIs using Postman and verified data consistency with PostgreSQL.
- **Technologies:** Next.js, React.JS, Tailwind, Node.js, Redux, Nuxt.JS

Frontend Developer

Unicloud Group

04/2021 – 10/2023

- Developed and deployed website interfaces for mobile, desktop, and tablet devices across a variety of industries, including Smart Home, Finance, and Digital Signatures using Next.js 14+, React.js, and TypeScript.
- Designed and implemented responsive, high-performance user interfaces with HTML5, CSS3, and Tailwind CSS.
- Built reusable components and implemented CI/CD pipelines, improving deployment speed and consistency.
- Conducted code quality checks using SonarQube and adopted modern security practices for authentication and authorization.
- Tested RESTful APIs using Postman and verified data consistency with PostgreSQL.
- Mentored interns and collaborated with cross-functional teams in Agile (Scrum) environments.
- **Technologies:** Next.js 14+, React.js, TypeScript, GraphQL, TailwindCSS, Redux, Git

Web Developer

07/2020 – 04/2021

H2 Technology Solution Company Limit

- Developed features on social networking web applications using Angular(8+), React.js, and Node.js.
- Designed and optimized RESTful APIs and MongoDB databases.
- Researched technologies and shared knowledge with the team.
- Improved product quality through user feedback.
- Participated in Agile development processes.
- **Technologies:** React.js, Angular, RxJS, Bootstrap, Material UI, Node.js, MongoDB, Git

NET Developer

Dsoft.software

12/2019 – 06/2020

- Contributed ideas and suggestions in team meetings and delivered updates on deadlines, designs and enhancements.
- Worked with .NET MVC developers to design APIs.
- Designed, developed and deployed client-facing software using HTML/CSS, angular(4+) and Bootstrap framework.
- Used SQL/No-SQL to develop and manage databases.
- **Technologies:** Angular, RxJS, Bootstrap, .Net MVC, SQL Service.

ABOUT ME

Passionate software engineer with 5+ years of experience in software development, specializing in JavaScript ES6, TypeScript, and Next.js framework. Skilled in building responsive, secure, and accessible web applications with modern front-end technologies. Experienced in Agile (Scrum) environments, writing clean, maintainable code, and contributing to large-scale web projects. With a strong foundation in front-end development, I am eager to expand my skill set toward becoming a full-stack developer and delivering end-to-end solutions

SKILLS

- JavaScript ES6/TypeScript
- ReactJS/NextJS
- 3D Graphics (Three.js, WebGL)
- Redux, Zustand
- RESTful API, GraphQL
- TailwindCSS, ShadcnUI
- NodeJS
- Docker, Git
- Agile (Scrum) Development

CERTIFICATE

Toeic

score: 575

2024-2026

EDUCATION

Bachelor of Computer Science

Industrial University Of Ho Chi Minh City

2016 - 2020
